

Makerere University.
Kampala - Uganda.
23.02.2019.

To ~~Dear~~

Nancy and the Squires Group,

Dear Nancy, How are you doing?
For me am doing well! I have written this letter to thank you dear and the Squires Group for the wonderful gift of a laptop you have given me. What you have done to me is going to influence my studies positively. I have been finding it difficult at the university without a laptop because we do a lot of research and even when they give us exercises, the lecturers tell us to type the work. I have been using my phone and sometimes using my friend's laptop which has been very risky. Dear Nancy you have solved my problem and I promise you that I am going to use this laptop to research about many things and even to type my exercises and I know I will be able to pass very well at the end of my course.

I am called Prascovia Makagana. I am twenty one years old. My village is called Kawole and it is found in Katungu District in Masaka region. I come from a poor family. I have ~~seven~~ sisters and one brother. Two of my sisters still visit the school and the brother and I am responsible for their school fees. I study while working. In order to support my

Sisters and brother. It is not an easy task though I have nothing to do about it because I want even my siblings to be with a bright future. So I work very hard in order to balance the books and work. But now am used to it.

Fortunately at the University, I don't pay tuition am on a government scholarship. So I only pay for accommodation and buy food and other necessities. ~~At~~

I attended my primary education at St. Francis Bbaala Villa-Maria, from senior one to senior four. I was at St. Michael's College Butende. I left home for two months after ordinary level ^{without studying} and

fortunately my German teacher looked for me a school which gave me a school bursary because my parents were unable to pay for my further education. Then in 2015 I joined advanced level at Archbishop Kizumbo Secondary School Kitovu. There,

they taught me very well and I managed to pass well. In 2017, I joined Makerere University and study German and History plus other ~~partitions~~ ^{modules} or teachers. My dream is to become a great teacher in Uganda first, then after I plan to continue with masters after my first degree and then I plan to do a doctorate ^{in Education} - Goal writing.

What inspires me is my village and background, whenever I go to my village, I tend to be motivated because all people tell me to study very

hard. Am the only child who has managed to join the university at my village. So the people at my village always motivate me to study hard. I know after my studies, I will be able even to develop my village. When I have free time I always read novels and this help me to discover many things.

People who tell lies annoys me the most.

In february 2017 I was very lucky that I got a chance to meet your sister Judy at Butende. She is very friendly and caring lady. I have a great hope that you are also like your sister. I am very happy that I have got to know about you! And am so grateful that you have helped me. I continue to thank you for the good heart and your group. May the almighty God reward you a hundred fold.

Yours faithfully,
Priscovia Nakagere-
